Phonic buttons - 2024-25

The Phonic Buttons Set consists of 237 magnetic buttons that represent the 26 letters of the alphabet. Each letter has between 7 and 11 buttons that offer the children an opportunity to interact with the phonic sounds by:

- identifying the sounds
- associating a variety of related words that have the same beginning sound
- associating pictures with words

It is a tool to improve the child's literacy ability through playful interactive learning.

The set of 237 buttons comes in a box together with a booklet that identifies the buttons per letter of the alphabet.

Boxed set ISBN 978-1928369814 Set price: R 2840.00 incl.
